

CIET Incubator for Innovation

Support for Entrepreneurial and Managerial Development of SMEs through Incubators

A Component of National Manufacturing Competitiveness Programme under Ministry of Micro, Small and Medium Enterprises, Government of India (Website: www.dcmsme.gov.in)

Scheme Details

Coimbatore Institute of Engineering and Technology is approved as Host Institution since 2012 to implement the scheme of “Support for Entrepreneurial and Managerial Development of SMEs through Incubators” by Government of India. The main objective of the scheme is to promote emerging technological and knowledge based innovative ventures that seek the nurturing of ideas from professionals beyond the traditional activities of Micro, Small & Medium Enterprises (MSMEs). Each Business Incubator can help the incubation of about 10 new ideas or units. It includes the provision of laboratory/workshop facilities and other assistance/guidance to young innovators.

Each BI will be given between Rs.4 lakh and Rs.8 lakh per idea/unit nurtured by them, limited to a total of Rs. 62.5 lakh for the ten units. The ratio of 4:1 between the incubated micro and small enterprises shall be maintained, i.e. 8 micro enterprises and 2 small enterprises in each BI shall be incubated. To ensure the participation of the entrepreneurs in a PPP mode, it has been proposed that 15% and 25%, as the case may be, of the cost of intervention, will be borne by Micro and Small Enterprises respectively, wherever applicable. The innovative options ensuring that private participation is on a proportionate basis and Government contribution of 75% to 85% towards the project cost will be utilized for technology fee, common facilities and hiring/lease of machinery, etc.

The incubatee will deposit his/her share to the host institute after completing the formalities of Tripartite Agreement, to be signed between the Government, the Host Institute and the aspiring incubatee, clearly laying down the obligations from and expectations of each of the three signatories. Initially, the Host Institution would be released 30 per cent of the expenditure expected to be incurred in the establishment and operation of the incubators during the ensuing financial year. The balance would be released to the Host Institution in one or more installment, once the earlier amount is reported to have been utilized by the Host Institution. Indicative areas of operation for innovative projects could be in the following fields:

Hitech Activities

- (i) Biotechnology
- (ii) Pharmaceuticals
- (iii) Information Technology
- (iv) Nanotechnology

(v) Polymer Products

Other Possible Areas1

(i) Fruit Processing

(ii) Ceramics Industry

(iii) Glass Industry

(iv) Herbal Medicines

(v) General Stores

(vi) Auto Components

(vii) Electrical Appliances

Other Possible Areas2

(i) Readymade Garments

(ii) Sports Goods

(iii) Wet Grinders
